Professional Summary

Highly motivated Web Developer with expertise in building scalable, responsive, and user-centric web applications. Proven ability to convert complex requirements into efficient, high-quality solutions while collaborating in agile teams to deliver projects on time. Strong problem-solving mindset with a commitment to continuous learning and leveraging modern technologies to create engaging, high-performance digital experiences.

Skills

- **Frontend:** JavaScript, Html, CSS, React.js, Redux, RTK, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB, Mongoose
- **Tools & Platforms:** Git, GitHub, Postman, VS Code,
- **MS Office**

Projects

➢ **Country Facts Website** | *React, React Router | Tailwind CSS | REST Countries API*

- Developed a responsive web application to display real-time country data using REST Countries API.
- Implemented search, region filtering, and A–Z/Z–A sorting features for improved user experience.
- Focused on performance optimization and accessibility.

Live Demo: https://countryfactswebsite.vercel.app

➢ **Health Buddy App** | React | Node.js & Express | MongoDB

Developed a full-stack web application enabling users to securely store and manage medical reports and vitals. Integrated AI analysis provides personalized health insights, actionable recommendations, and lifestyle guidance.

Key Features:

- **Report & Vitals Management:** Secure upload and tracking of reports and vital metrics.
- **AI-Powered Analysis:** Identifies abnormal values, generates summaries, suggests doctor questions, and provides nutrition recommendations.
- **Vital Insights:** Instant analysis, actionable guidance, risk assessment, and next-step plans for health, fitness, recovery, and wellness.
- **Authentication:** JWT-based login/registration with email-based password reset functionality.

Demonstrates expertise in full-stack development, AI integration, and secure, scalable application design.
